

Rampdown Schedule to the 2025 Sustainable Yield		
Water Year	% Rampdown	Annual Allocation ¹ <i>acre-feet</i>
2020	100%	24,293
2021	95%	23,079
2022	90%	21,867
2023	85%	20,652
2024	80%	19,440
2025	75%	18,228
2026	73%	17,800
2027	72%	17,384
2028	70%	16,962
2029	68%	16,543
2030	66%	16,120
2031	63%	15,309
2032	60%	14,490
2033	56%	13,673
2034	53%	12,856
2035	50%	12,034
2036	46%	11,221
2037	43%	10,402
2038	39%	9,586
2039	36%	8,767
2040	33%	7,954

1. The Annual Allocation in each WY is the sum of each Party's Annual Allocation, which is calculated by multiplying the Party's BPA by the Percent Rampdown in effect for that WY. The Annual Allocation is then rounded to the nearest whole af. Due to the Judgment-defined rounding process, the WY 2040 Annual Allocation of 7,954 af is slightly higher than the 2025 Sustainable Yield of 7,952 af.
